BackBeat,

Thank you for performing at International Beatleweek 2016. Here's a little review for you to use:

One of the hardest working bands I've seen at the festival, BackBeat, from Melbourne Australia, were professional, reliable and a pleasure to work with. Not only that, but they play with a joy and energy that is a credit to the music, keeping Rock 'n' Roll music alive, from their period-correct instruments to the appropriately sweaty leather outfits. Going down a storm with casual Beatles fans and aficionados alike, they'll always be welcome here in Liverpool, and their spiritual home, the best of cellars, The Cavern Club.

Best Regards,

Clark Gilmour
